Returned with the following remarks:-

The proposal of the Municipal Council to adopt the hire purchase system as detailed under Para III to L.T. Tariffs (Thermal) approved in G.O. No. 509 Electricity dated 10-3-1937 is recommended as a very special case; ordinarily, since house wiring is subject to intense competition, this aspect of the work is not recommended to Local Authority undertakings; but in Hospet inspite of the licensee operating for the past three years, Electricity is very little known to the average public, and also heavy cost of wiring is one of the chief causes for the poor development. Regular wiring contractors also do not exist. Therefore the licensee's proposal is recommended as this is one of the possible chances of load development.
